

Macola 10

The Power of Payment Choice

Improved check and electronic payments from your desktop and mobile phone

SecureCheck Cloud 9 frees Macola customers from the confines of making payments solely from their offices. Instead, SecureCheck Cloud 9 provides the power to authorize, sign, send, and manage check and electronic payments created in Macola. Authorize and send checks and ACH payments anytime, anywhere in the world—from any mobile device, with instant notifications sent to payees via SMS and email.

Save On Every Payment!

SecureCheck Cloud 9 can eliminate postage costs with remote check printing and the option for payees to print and deposit their payments. It's the best of both worlds for Macola customers—improved check payment processes and a one-touch path to pay using electronic virtual checks (eVC) and real ACH. Macola customers will reduce current payment costs by up to 80 percent!
